A brief review of each of the Southern California Cruiser Association
Cruiser Navigation Rallies throughout the boating season

Southern California Cruiser Association's

CRUISER NAVIGATION SERIES

The annual Cruiser Navigation Series is sanctioned by the Southern California Cruiser Association (SCCA). It consists of a group of Cruiser Navigation Rallies (previously known as predicted log races) conducted and hosted by SCCA member yacht clubs. The series is popular among contestant skippers and crew because participation in the complete series will take them into practically every harbor and boating area in Southern California, from Marina del Rey to San Diego, including harbors of Catalina.

Throughout the years the series has been refined into the present schedule extending over a period of eight months with only limited events planned during the summer 'family-cruising' months.

There are no entry fees. All members of SCCA member clubs are eligible. Invitations with instructions for each rally are posted on the SCCA website and e-mailed to each SCCA skipper-member. Typically a Zoom workshop is held prior to each contest to review the course and offer suggestions.

By participating in this go-somewhere series, the contestant-skipper will enjoy a more complete boating season. They will use their boat at times when, without the lure of the rally, they might have stayed at home. They will go places they might not otherwise have visited; all the while enjoying the friendship and camaraderie of a group of like-minded skippers. Cruising plans are made even more convenient because, in most cases, the berthing and dining activities are arranged by the sponsoring yacht club. The result is a pleasant combination of the challenge of cruiser navigation and a social outing. What better way to enjoy your boat more fully while experiencing the self-satisfaction gained from honing your navigational skills.

SEASON OPENER

This popular rally kicks off the series. Run in the sheltered waters of San Pedro Bay, this rally offers a fine opportunity to “dust the cobwebs off the old mill” on this relatively short warm-up rally. The Shultz Easter Catalina Rally from Long Beach to Avalon has long been popular due to its destination and the availability of moorings in Avalon that time of year. The course, usually within Santa Monica Bay, is subject to the "backwards" Davidson Current at this time of the year offering a challenge for all. The popular trophy awards dinner is held at the Club on Saturday evening.

BAHIA CORINTHIAN INVITATIONAL

The BCYC Invitational has become a very popular rally. Perhaps this is because of the weather. It is suspected that the weather gods must have relatives in Newport because we invariably have clear, warm, sunny skies for this event. However, beware the current gods, especially in the vicinity of Huntington Beach, as they sometimes seem to get carried away. Back at the docks, the Club does a yeoman's job in providing slips and hospitality for visiting skippers.

CRAIG RALLY

The Craig Rally is the longest and oldest on the SCCA calendar. The Rally consists of two separate rallies, the results of which are combined to yield an overall score for the Rally. Due to the planning, preparation, and distance involved, the Craig is run every other year on odd numbered years. The overall distance would exceed the daylight hours for slower boats so the rally is broken into two major legs. On Friday the first leg begins in Long Beach and travels to Oceanside where we are welcomed by Oceanside Yacht Club at their docks. On Saturday the second leg runs from Oceanside to San Diego where we tie up at the docks at San Diego Yacht Club.

The popularity of the rally is due in part to the extended destination and additionally to the security afforded in knowing that help is never far away when traveling with a group of experienced and knowledgeable yachtsmen.

Awards are presented to the winners of the Friday Donaldson leg at a dinner at Oceanside Yacht Club. The second Corredores leg trophies and the Craig overall trophies for the skipper with the best combined score from the two legs are presented at a banquet Saturday evening at the San Diego Yacht Club.

It is of historical interest to note that in the 1980s and 90s the Craig Rally continued to and terminated in Ensenada. Although not officially connected to the Craig or SCCA, most of the skippers then left Ensenada for the cove at South Todos Santos Island. There they participated in the activities of the whimsical Todos Santos Yacht Club. Activities included opening day ceremonies, dinghy rallies, cocktail parties, the Frankie Avalon Beach Party and other playful events. In 1996 the Cove was closed because of aquaculture activities and the Opening Day was held on the dock at the Ensenada Marina. Future activities for the TSYC remain to be discovered.

CRAIG DONALDSON LEG

The first or Donaldson Leg of the Craig Rally travels from Long Beach to Oceanside Harbor, a distance of about 50 miles. If needed, Thursday night berthing prior to the Donaldson is at Long Beach Yacht Club. Slips for Friday night are arranged at the Oceanside Yacht Club. The skippers meeting is held at Long Beach Yacht Club on Thursday evening and the trophy awards for the first "leg" are given at a banquet at Oceanside Yacht Club on Friday evening.

Rally:	Craig Donaldson
Date:	Friday, following July Fourth weekend or a week later.
Type:	Brugman (when combined with the Corredores Leg).

CRAIG CORREDORES de BAJA LEG

The Corredores is the second "leg" of the Craig Rally. It runs approximately 40 miles from Oceanside to San Diego on Saturday following the Friday Craig Donaldson Leg. DEL MAR

The Del Mar Rally travels from an enroute point between LA/Long Beach and West End to Catalina Harbor on the ocean side of the isthmus at Catalina Island. SCOTT RALLY

The Tom Scott Memorial Rally was created as a feeder to the Ramsey. It typically runs from the Los Angeles/Long Beach area to Isthmus Harbor on the Mainland side of Catalina Island at Two Harbors. Friday night moorings at Isthmus Harbor are typically no-problem on this date. A do-it-yourself barbecue at one of the fire pits ashore is the setting for the awards presentation. RAMSEY

The Ramsey Rally is one of the oldest Rallies in Southern California. It is unique because it circumnavigates Catalina Island, starting at the Isthmus and continuing counterclockwise around the backside and finishing near Avalon. The course is especially challenging owing to the fact that there are no buoys and all marks to be called are features on the shoreline. Catalina Island Yacht Club makes reserved moorings available for all participant skippers. Avalon Harbor and the awards banquet at the Catalina Island Yacht Club facility are favorites of all.

SCORING AND TROPHIES

Rallies are conducted under the rules published by the SCCA. The SCCA Rule Book may be found on the website at <http://socalcruiserassociation.org/downloads.aspx>. Scores are determined by computing the overall percent of error for all legs of the rally for each skipper. The contestant with the lowest overall percentage error is the winner. Trophies are awarded to at least the top three skippers. In addition, a trophy is awarded for the best score by a skipper in their first year of nav. rallying.

Scores from each rally are used to compute point standings for various trophy series and awards. Points are accumulated for the following awards:

Top Ten Trophy: Highest total points from each skipper's best ten rallies. Ten trophies are awarded each year. Additionally, the top ten racing numbers for the following year are assigned according to the finish positions in this series (except Brugman #1).

Brugman Trophy: Highest total points from each skipper's best six Brugman rallies of the eight in the season series (participation in a minimum of six rallies is required). The Brugman Trophy is considered the most prestigious in the SCCA series and the recipient is entitled to run under the #1 skipper number the following year.

Bathke Trophy: Highest total points from any two rallies not entered in the previous three years. This trophy is intended for the newer contestant and for the veteran skipper who has been "resting".

Spring Series: Highest total points for all rallies entered in the Spring Series.

SCORING AND TROPHIES contd.

Fall Series: Highest total points for all rallies entered in the Fall Series.

Bobrick Trophy: Highest total points from any three of the last four rallies on the calendar. The Bobrick is intended to spur participation in the 'end-of-season' rallies.

Lurie Trophy: Awarded annually to the skipper in their first year with the best overall performance.

Standings for series trophies are compiled throughout the year and listed in e-mails sent to Subscribing SCCA members. Series trophies are awarded at the annual SCCA trophy awards and installation dinner meeting typically held in December.
