

Competitors will follow VYC's standard traffic flow. Opti trailers may drop off directly in the RED zone. SPV's will drop off at VYC's hoist, in the Northeast corner of the parking lot—SPV trailers will be moved and stowed in the VENTURA WEST MARINA parking lot on the other side of the VYC gated fence. Individual loading/unloading will take place in the YELLOW zone before moving into the RED zone.

RED zone: Competitor gathering; rigging/derigging; Opti & Opti trailer storage.
BLUE zone: Overflow Opti & Trailer Parking
YELLOW zone: Individual loading/unloading

***Parents and observers must park outside of the VYC gates, there are multiple paid parking lots in walking distance and street parking is free.**
