

Team Composition for the 2024 – 2025 Season

The USODA USNT Committee supports a National Team comprised of the top 40 sailors (not including seniors) based upon 2024 Optimist Team Trials results, plus the top 15 sailors based upon 2024 Optimist Spring Team Qualifier results. Additional sailors may be added to the National Team at the sole discretion of the USNT Committee and the USNT Performance Director at any time during the season.

Summary of Qualification Criteria and Team Composition

Qualification Criteria	USNT
Team Trials	Top 40 finishers (not including seniors)
Seniors (age-outs)	Sailors turning 15 years old between Team Trials and the end of the calendar year
Estimated Team Size Following Team Trials	
Regular	40
<u>Seniors (estimate)</u>	<u>5</u>
Total	45
Spring Team Qualifier	Top 15 finishers as described in the selection process below
Estimated Team Size following STQ	
TT Regular	40
TT Seniors	5
<u>STQ Additional</u>	<u>5</u>
Total (Approximate)	50

Selection Process for the 2024 – 2025 Season

The top **40** finishers at the **2024 Optimist Team Trials** will be invited to join the National Team for the 2024-2025 season.

- Sailors will be invited to join the teams based on the order of their finishes at Team Trials.
- Sailors will be required to accept or turn down the invitation to join the team and will be required to pay a membership fee of \$600 to accept their invitation. Seniors may join the team and pay a discounted membership fee of \$450.
- Only those sailors accepting invitations and paying their membership dues from among the top 40 finishers (not including age-outs) will be named to the National Team.
- Sailors turning 15 years old between Team Trials and the end of the calendar year (age-outs) who finish among the top 40 will be offered **Senior** spots on the teams, but these will not be counted towards the 40 allocated spots. Senior spots are available only after Team Trials and are not offered after the Spring Team Qualifier.
- So long as a sailor is eligible to compete in the Opti, he or she is eligible to hold a place on the team for all or part of the year.
- There will be no minimum number of sailors on the team. For example, if only 30 of the top 40 sailors decide to join the USNT after the 2024 Optimist Team Trials, then the team will remain at 30 sailors until the 2024 Optimist Spring Team Qualifier.
- Sailors who accept an invitation to the USNT will remain members of the team until the next Team Trials unless they become ineligible due to aging out as described above, disciplinary action or they choose to withdraw from the team.

Additional sailors will be invited to join the USNT based on the results of the **2024 Optimist Spring Team Qualifier**.

- Sailors finishing among the top 15 places at the Spring Team Qualifier who are not already members of the USNT will be invited to join the USNT.
- Sailors invited to join based upon the 2024 Optimist Spring Team Qualifier results will be required to pay a membership fee of \$500.

- Sailors who accept invitations and paying their membership dues after the 2024 Optimist Spring Team Qualifier will remain members of the USNT until the 2025 Optimist Team Trials.

In addition to spots designated for the USNT at Team Trials and at Spring Team Qualifier, the USNT Committee and the USNT Performance Director may, within their sole discretion, invite additional sailors to the USNT at any time during the season. Such discretion will be reserved for sailors who have exhibited the high skill level otherwise required to qualify for invitation to the USNT. Sailors may not petition for special invitation. Any sailors invited to join the USNT during the season at the discretion of the USNT Committee and USNT Performance Director will be required to pay a membership fee of \$600.

Guest Sailors

- Sailors who qualify for a summer or spring international team and who are not members of the USNT may be invited as guest sailors to one (1) USNT practice at the discretion of the USNT Committee and the USNT Performance Director. If a non-USNT sailor qualifies for both a summer regatta and spring regatta, the sailor may be invited to two (2) practices. The sailor will not become a member of the USNT, but he or she may have the opportunity to train with one or more coaches and fellow sailors from the international team of which he/she is a part.
- IODA teams may be linked to specific USNT practices and when possible, coaches of the international teams may be invited as guest coaches for these practices This will give coaches and sailors the opportunity to meet and work together prior to the international event.
- Additional guest sailors from the clubs hosting or coordinating the practices will be invited to each of the USNT practices. The number of guest sailors from the host club invited to a practice will depend on the size of the practice, with guest sailors not to make up more than 20% of the sailors attending the practice. The maximum number of guest sailors shall be five (5) from the host club.
- Guest sailors will pay a registration fee \$150 higher than the fee paid by USNT members.
- All guest sailors must be Team Trials Qualified in order to attend a practice, except for the first practice of the season (e.g., Kick-Off Practice in June).
- Guest sailors will not become members of the USNT.

Membership and Practice Fees

Qualified sailors joining the USNT following Team Trails will be required to pay a membership fee of \$600 (\$450 for Seniors), and those joining after the Spring Team Qualifier will be required to pay a membership fee of \$500.

- Membership fees will be non-refundable.
- Practice fees will be assessed on a per-event basis similar to the way regatta fees are charged, and registration will be managed on the USODA website.
- USNT members are expected to register for practices prior to the established deadline, which is usually six (6) weeks prior to the start of practice. Space permitting, if a sailor registers for a practice after the initial deadline, a late fee of \$150 will be assessed.
- Practice Refund Policy:
 - ☐ If a sailor cancels before the initial registration deadline, then they may receive a full refund, less the credit card and clubspot fees or a \$25 administrative fee, whichever is higher
 - ☐ If a sailor cancels after the initial deadline, but before registration closes (so within the "late fee" period), then they may receive a refund for the practice fee less the \$150 late fee, but only if their spot can be filled by another sailor.
- The same rules apply to International Team guests with respect to registration deadlines, late fees, and cancellation fees. Host Club guest invites will not be assessed any late fees or cancellation fees, but they must have completed the registration process prior to the start of the practice to which they have been invited.
