

YCSIC Explanation of Dues & Fees

Full Membership

Full membership is our year-round membership offering. When you secure your spot on the waiting list, your number indicates your position in line for full membership. All new members pay a \$1,000 one-time initiation fee the first year they join. The \$250 deposit paid to secure your spot on the waiting list will be applied to the initiation fee. If a waiting list applicant joins as an associate member (described below), they will not have to pay an initiation fee again when reached as a full member. We currently have a cap of no more than 650 full memberships.

If married husband & wife must join at the couple membership rate. To be eligible for the single membership rate the individual must be unmarried. The continuation of the COVID-19 assessment will be decided on a yearly basis. The breakdown of dues & fees for full members in 2021 is as follows:

Associate Membership

The Club also offers an associate “off-season” membership, which is available **only** to those on our waiting list. Currently we have a cap of no more than 125 associate memberships per off-season. The estimated wait time for the associate membership offer is 1-2 years. The associate membership is an optional membership offering, it does not help or hurt the waiting list applicant’s position in line for full membership. If the applicant declines the associate offer, we extend the offer to the next applicant on the list until we reach our cap of 125 associate memberships. Associates can then renew each off season until reached for full membership. The associate membership timeframe is set as the weekend after Labor Day to weekend before Memorial Day. The breakdown of dues & fees for associate members Fall ’21-Spring ’22 is as follows:

Associate Membership
