## Pan American Games

### Silver for Roble Shea

It's a long road to the Olympics and final selection is still more than six months away. The stepping stones occur to achieve that path and Roble Shea stepped up to secure the USA has a "spot" in the 49erFX roster in Japan at the 2020 Games. They move on to the site of the 2020 Games this week to test the venue. Follow them on FB; support them through the ILYA Foundation. Click on the button on the leftside of Scowlines.

OK you have never heard this one before. While Roble Shea were sailing in South America with athletes from all sports, the local club, Beulah, was raising \$7000. How, you may ask? I hate to tell it so you older folks stop reading here. A member (mighty young and with a little encouragement) auctioned off waxing strips to rid himself of chest hair. There is a rumor that women cannot hear of some prestigious man committing some unusually similar act in a secret organization related to sailing, but this one might top it. Or there are local traditions related to July 4th and chest hair on Beulah "in the old days" --- what's with all this? Truth be told, there was some medical attention provided with each "strip" --- something about lotion, powder and some liquid in a glass.

### More From Our Olympic Hopefuls

#### Melges Rowe

The Month of July was filled with lots of sailing, burritos, and scow sailing. July was our first month spent in the United States since March this year. All we can say is that the United States is the place to be. We spent July in Lake Geneva, Long Beach, and New Jersey.

What we were up to.

We started the month of July out in Long Beach California, where we met up with our fellow US 49er teammates. We proceeded to participate in a two-week-long camp that focused on mainly boat handling, starting, and leeward mark

After our camp in Long Beach, we decided to split up from the group and head back home to Lake Geneva to do some training alone. Usually we wouldn't ever choose training alone vs. training with a group, but in this case, it

approach. The picture above shows you just how excellent our time was in Long Beach; we had good-sized waves and great breeze throughout our camp. Finn and I were quite familiar with Long Beach because we had spent about a month there two years ago preparing for the 29er worlds in 2017, it was great to be back. During our 2-week training camp, we attended two fundraisers which were incredibly helpful funding wise. Thank you to everyone that has been supporting us!

seemed like the right thing to do. We packed up our boat and headed to Wisconsin. Our focuses in Lake Geneva which will continue till the end of August are mainly based around getting our equipment dialed in before our trials. We also find that our weaknesses are also consistency in boat handling and even starting. Our time at home will sum up to boat work, starting drills, and lots of tacks and gybes, and we mean lots.

### What's Next?

We are currently preparing for the ILYA Championships in Oshkosh Wisconsin where we are determined to win the E and A Scow classes. Then we will head back home and continue training before the E-Scow Nationals in the beginning of September.

### Our Schedule

ILYA Championships, August 14-18, Oshkosh, Wisconsin  
E-Scow Nationals, September 6-8, Muskegan, Michigan  
Oakcliff Event #1, September 14-15, Oyster Bay, New York

### Thank You!
